

Ephemeris Tool 4.5 Excel

The screenshot shows the Ephemeris Tool 4.5 Excel interface. The top section is a settings panel with a blue background. It includes input fields for Start date (-1000), End date (2000), Max List Size (10), Range type (16), Range Argument (W:\copp_projects\astropatterns\davdb.csv), Pattern (9), and Pattern Argument. There are also buttons for 'Run Settings', 'Compute', and 'Copy To List Range'. A 'Reference Horoscope' section contains fields for Date, Time (UT), Lon (E-->), and Lat (N-->). A 'Julian Date / E.T.' field is also present.

Below the settings panel is a table with the following columns: Julian Date (ET), Calendar Date, Time (ET), Score, and Label. The table contains three rows of data:

Julian Date (ET)	Calendar Date	Time (ET)	Score	Label
2399428.1271702	23.4.1857	15h 3m 8s	6701.4902	Leoncavallo, Ruggero
2394586.8772906	21.1.1844	9h 3m 18s	6690.6693	Carrano, Eneauele
2391500.0280400	22.1.1844	13h 4m 30s	6646.2497	Bianco, Paolo

Below the table is a 'Horoscope Chart Display' window. It shows a circular horoscope chart with zodiac signs and planets. To the right of the chart is a list of coordinates:
